MANAGER CONDUCTING AUDIT

INSTRUCTIONS:

Review every item. Enter price, food cost, and sales volume. Calculate margin. Flag for action.

ACTION CODES:

KEEP = No change needed

REPRICE = Adjust price

REPOSITION = Move on menu

REMOVE = Discontinue item

ITEM-BY-ITEM AUDIT

| #  | Item Name | Category | Price | Food Cost \$ | Contrib Margin | Volume H/M/L | Menu Position | Action | Notes |
|----|-----------|----------|-------|--------------|----------------|--------------|---------------|--------|-------|
| 1  |           |          |       |              |                |              |               |        |       |
| 2  |           |          |       |              |                |              |               |        |       |
| 3  |           |          |       |              |                |              |               |        |       |
| 4  |           |          |       |              |                |              |               |        |       |
| 5  |           |          |       |              |                |              |               |        |       |
| 6  |           |          |       |              |                |              |               |        |       |
| 7  |           |          |       |              |                |              |               |        |       |
| 8  |           |          |       |              |                |              |               |        |       |
| 9  |           |          |       |              |                |              |               |        |       |
| 10 |           |          |       |              |                |              |               |        |       |
| 11 |           |          |       |              |                |              |               |        |       |
| 12 |           |          |       |              |                |              |               |        |       |
| 13 |           |          |       |              |                |              |               |        |       |
| 14 |           |          |       |              |                |              |               |        |       |
| 15 |           |          |       |              |                |              |               |        |       |
| 16 |           |          |       |              |                |              |               |        |       |
| 17 |           |          |       |              |                |              |               |        |       |
| 18 |           |          |       |              |                |              |               |        |       |
| 19 |           |          |       |              |                |              |               |        |       |
| 20 |           |          |       |              |                |              |               |        |       |

ITEMS REVIEWED

KEEP

REPRICE / REPOSITION / REMOVE

PRIORITY FLAGS AND FOLLOW-UP

☐ Highest-margin item — confirm prominent menu placement

☐ Lowest-margin high-volume item — reprice or reformulate first

☐ Item flagged for removal — confirm with owner before pulling

☐ Price changes to implement before next service
