

WEEK IDENTIFICATION

WEEK ENDING DATE (MONDAY)

COMPLETED BY

DATE SUBMITTED

INSTRUCTIONS:

Pull scheduled vs. actual hours from your scheduling system and POS every Monday. Calculate labor % as total labor cost divided by net sales.

LABOR BY DEPARTMENT

Department	Sched Hours	Actual Hours	Variance Hours	Sched Cost \$	Actual Cost \$	Labor %	Target %	Status
Bar								
Kitchen								
Floor								
Management								
Other								

TOTAL ALL DEPARTMENTS

WEEK SUMMARY

Total net sales this week	
Total labor cost this week	
Overall labor % this week	
Labor % target (enter house target)	
Variance vs. target (+/-)	
Labor % vs. prior week (+/-)
